Contents

Aboulafia, J., see Sanioto, S. M. L. 115

Altringham, J. D., Johnston, I. A.
Changes in tension generation and ATPase activity in skinned muscle fibres of the carp following temperature acclimation 449

Amiel, C., see Bailly, C., et al. 28

Aylward, P. E., McRitchie, R. J., West, M. J., Chalmers, J. P.
Relative roles of vagal and sympathetic effector mechanisms in the baroreflex control of myocardial contractility in conscious rabbits 21

Baidan, L. V., Tishkin, S. M., Shuba, M. F.
Possible mechanism of adrenergic and noradrenergic inhibition in intestinal smooth muscle cells 429

Bailly, C., Roinel, N., Amiel, C., Coureau, C., Couette, S., Legendre, Y., Malorey, P.
Stimulation by glucagon and PTH of Ca and Mg reabsorption in the superficial distal tubule of the rat kidney 28

Bassett, A. L., see Lodge, N. J., et al. 222

Bauer, R. D., Busse, R., Schabert, A.
The input impedance of the peripheral vascular termination in skeletal muscle 308

Beauwens, R., see Nagel, W., et al. 337

Beck, F., see György, A. Z., et al. 205

Belardinelli L., see West, G. A. 66, 75

Bencsáth, P., see Szénási, G., et al. 146

Benham, C. D., Bolton, T. B., Lang, R. J., Takewaki, T.
The mechanism of action of Ba^{2+} and TEA on single Ca^{2+}-activated K^+-channels in arterial and intestinal smooth muscle cell membranes 120

Berman, M. R.
Force response to rapid and slow small amplitude length releases in isometrically contracting normal width and radially compressed trabeculae from rat heart 136

Bernardini, G., see Peres, A., et al. 41

Bertuglia, S., see Colantuoni, A., et al. 289

Binder, H. J., see Sandle, G. I., et al. 433

Böhmer, G., see Schmid, K., et al. 58

Bolton, T. B., see Benham, C. D., et al. 120

Bossu, J. L., Feltz, A., Thomann, J. M.
Depolarization elicits two distinct calcium currents in vertebral sensory neurones 360

Brown, C. D. A., see Kolb, H. A., et al. 262

Busse, R., see Bauer, R. D., et al. 308

Bustamante, J. O.
Block of sodium currents by the calcium antagonist D600 in human heart cell segments 225

Capasso, G., Kinne-Saffran, E., De Santo, N. G., Kinne, R.
Regulation of volume reabsorption by thyroid hormones in the proximal tubule of rat: Minor role of luminal sodium permeability 97

Capasso, G., Lin, J.-T., De Santo, N. G., Kinne, R.
Short term effect of low doses of tri-iodothyronine on proximal tubular membrane Na-K-ATPase and potassium permeability in thyroidectomized rats 90

Cassity, N., see Martinez, J. R. 50

Castaing, Y., see Guenard, H., et al. 384

Chalmers, J. P., see Aylward, P. E., et al. 21

Claassen, H., see Howald, H., et al. 369

Clauss, W., Dürr, J., Skadhauge, E., Hörnicke, H.
Effects of aldosterone and dexamethasone on apical membrane properties and Na-transport of rabbit distal colon in vitro 186

Clauss, W., Schäfer, H., Horch, I., Hörnicke, H.
Segmental differences in electrical properties and Na-transport of rabbit caecum, proximal and distal colon in vitro 278

Cohen, I. S., see Datyner, N. B., et al. 105, 318

Cokelet, G. R., see Fenton, B. M., et al. 396

Colantuoni, A., Bertuglia, S., Intaglietta, M.
Variations of rhythmic diameter changes at the arterial microvascular bifurcations 289

Cook, D. I., Frömter, E.
Is the voltage divider ratio a reliable estimate of the resistance ratio of the cell membranes in tubular epithelia? 388

Corman, B.
Streaming potentials and diffusion potentials across rabbit proximal convoluted tubule 156

Couette, S., see Bailly, C., et al. 28

Coureau, C., see Bailly, C., et al. 28

Crabbé, J., see Nagel, W., et al. 337

Curci, S., see Schettino, T., et al. 331

Dantzler, W. H., see Mukherjee, S. K. 35

Datyner, N. B., Gintant, G. A., Cohen, I. S.
Microprocessor controlled trituration device for the dissociation of cardiac and other tissues 105

Datyner, N. B., Gintant, G. A., Cohen, I. S.
Versatile temperature controlled tissue bath for studies of isolated cells using an inverted microscope 318

Dawson, D. C., see Halm, D. R. 236

Dawson, D. C., see Kirk, K. L. 82

Deitmer, J. W., Eckert, R.
Two components of Ca-dependent potassium current in identified neurones of *Aplysia californica* 353

De Santo, N. G., see Capasso, G., et al. 90, 97

de Zeeuw, D., see Jonker, G. J., et al. 220

Dich-Nielsen, J. O., Laugesen, L. P., Hedemark Poulsen, J.
Submandibular salivary secretion in the cat and associated potassium movements: Dependence on temperature and perfusate flow rate 440

Diesselhoff, M. M. C., see Ince, C., et al. 240

Di Gregorio, F., see Vyskočil, F., et al. 1

Drüeke, T., see Karsenty, G., et al. 151

Dürr, J., see Clauss, W., et al. 186

Dunlap, K.
Forskolin prolongs action potential duration and blocks potassium current in embryonic chick sensory neurons 170

Duval, A., Léoty, C.
Changes in the ionic currents sensitivity to inhibitors in twitch rat skeletal muscle following denervation 407

Eckert, R., see Deitmer, J. W. 353

Endou, H., see Nonoguchi, H., et al. 229

Fallert, M., see Schmid, K., et al. 58

Farrar, J. K., see Tour, U. I. 283

Feltz, A., see Bossu, J. L., et al. 360

Fenton, B. M., Wilson, D. W., Cokelet, G. R.
Analysis of the effects of measured white blood cell entrance times on hemodynamics in a computer model of a microvascular bed 396

Ferroni, A., see Peres, A., et al. 41

Findlay, I., Petersen, O. H.
Acetylcholine stimulates a Ca^{2+}-dependent Cl^- conductance in mouse lacrimal acinar cells 328

Foster, E. S., see Sandle, G. I., et al. 433

Frömter E., see Köhler, M. 47

Frömter, E., see Cook, D. I., et al. 388

Frömter, E., see Ikonomov, O., et al. 301

Gagelmann, M., Güth, K.
Force generated by non-cycling crossbridges at low ionic strength in skinned smooth muscle from *Taenia coli* 210

Garnier, D., see Richard, S., et al. 312

Gelband, H., see Lodge, N. J., et al. 222

Gintant, G. A., see Datyner, N. B., et al. 105, 318

Gödde, J.
Low cost storing of two electrical biosignals from DC to 20 kHz at more than 80 dB dynamic range 324

Gögelein, H., see Greger, R., et al. 446

Gorio, A., see Vyskočil, F., et al. 1

Green, H. J., see Houston, M. E., et al. 348

Greger, R., Schlatter, E., Gögelein, H.
Cl^--channels in the apical cell membrane of the rectal gland "induced" by cAMP 446

Grüsser, O.-J., Kollmann, W., Lerch, J., Mijatović, E.
Changes in pulp temperature during thermostimulation of human teeth by a simple electrically controlled thermode 273

Guenard, H., Manier, G., Castaing, Y., Varene, N.
Series dead space for inert gases in healthy subjects 384

Gülden, K-M., Vogel, W.
Three functions of sodium channels in the toad node of Ranvier are altered by trimethyloxonium ions 13

Güth, K., see Gagelmann, M. 210

György, A. Z., Beck, F., Rick, R., Thurau, K.
Electron microprobe analysis of proximal tubule cellular Na, Cl and K element concentrations during acute mannitol-saline volume expansion in rats: evidence for inhibition of the Na pump 205

Haeberle, J. R., Hott, J. W., Hathaway, D. R.
Regulation of isometric force and isotonic shortening velocity by phosphorylation of the 20,000 dalton myosin light chain of rat uterine smooth muscle 215

Halm, D. R., Dawson, D. C.
Aldosterone does not stimulate the Na:K pump in isolated turtle colon 236

Harder, D. R., Madden, J. A.
Cellular mechanism of force development in cat middle cerebral artery by reduced PCO_2 402

Hassinen, I. E., see Kainulainen, H., et al. 296

Hathaway, D. R., see Haeberle, J. R., et al. 215

Hayslett, J. P., see Sandle, G. I., et al. 433

Hedemark Poulsen, J., see Dich-Nielsen, J. O., et al. 440

Hessels, J., see Rispens, P., et al. 344

Hoppeler, H., see Howald, H., et al. 369

Horch, I., see Clauss, W., et al. 278

Hörnicke, H., see Clauss, W., et al. 186, 278

Hosomi, H., see Kaizuka, T., et al. 285

Hott, J. W., see Haeberle, J. R., et al. 215

Houston, M. E., Green, H. J., Stull, J. T.
Myosin light chain phosphorylation and isometric twitch potentiation in intact human muscle 348

Howald, H., Hoppeler, H., Claassen, H., Mathieu, O., Straub, R.
Influences of endurance training on the ultrastructural composition of the different muscle fiber types in humans 369

Huisman, R. M., see Jonker, G. J., et al. 220

Ikonomov, O., Simon, M., Frömter, E.
Electrophysiological studies on lateral intracellular spaces of *Necturus* gallbladder epithelium 301

Ince, C., van Dissel, J. T., Diesselhoff, M. M. C.
A teflon culture dish for high-magnification microscopy and measurements in single cells 240

Inomata, H., see Wakui, M. 109, 112

Intaglietta, M., see Colantuoni, A., et al. 289

Jentsch, T. J., Matthes, H., Keller, S. K., Wiederholt, M.
Anion dependence of electrical effects of bicarbonate and sodium on cultured bovine corneal endothelial cells 175

Johnston, I. A., see Altringham, J. D. 449

Jonker, G. J., de Zeeuw, D., Huisman, R. M., van der Hem, G. K.
Pharmacological zero for electromagnetic renal blood flow measurement 220

Kainulainen, H., Takala, T. E. S., Hassinen, I. E., Vihko, V.
Redistribution of glucose uptake by chronic exercise, measured in isolated perfused rat hearts 296

Kaizuka, T., Yoshida, H., Hosomi, H.
Time-dependent effect of sectioning carotid sinus nerves on the vagally mediated baroreflex 258

Karsenty, G., Lacour, B., Ulmann, A., Piérandréi, E., Drüeke, T.
Phosphate fluxes in isolated enterocytes from vitamin D replete and vitamin D deficient rats – early effects of calcitriol 151

Keller, S. K., see Jentsch, T. J., et al. 175

Kinne, R., see Capasso, G., et al. 90, 97

Kinne-Saffran, E., see Capasso, G., et al. 97
